Discover everything you need to know about maximizing yields in a concise and simple way that anyone can understand.

- C3 plant biology
- Water, irrigation and mediums
- Ph and nutrients
- Hydroponic systems & dirt gardens
- Propagation

- Setting up garden/environment controls
- Carbon dioxide enrichment
- Pruning
- Integrated pest management
- Harvesting
THE GARDEN SAGE is a true cash crop professional that has been guiding gardeners to their greatest successes for over 15 years. Working full time on the retail floors of busy hydroponic stores of British Columbia has allowed The Garden Sage to deal with an incalculable variance of challenging situations.

With years of professional teaching experience under his belt, he knows exactly what you need to know to increase your yields. He has been told many times that the information he has imparted in less than ten minutes has tremendously boosted yield resulting in increased profits.

This book is a must read for any beginner to expert indoor gardener.

“If you want to grow indoors, someday you will probably go into a hydroponic store to make purchases for your garden and I am the guy that you would want to find on the other side of the counter. Now, I can’t be there to serve all of you but I can give you my special understanding.”

- David Robinson, The Garden Sage
